6

Who are we ?

We are MotionTech™

A tech-driven
company

At our core lies our
technologies, based
on **years of academic
research**

A Swiss
company

We are based at the
heart of the **Health
Valley**, living up to the
Swiss quality standards

We strive for
Mass-customisation

We believe that **everyone
deserves the best**. It's
now easily accessible and
affordable. So why not ?

Industry 4.0 - the future is now

With our smart factory we can help you bring your care to the next level, and deliver the best for your patients every single time.

But we know change can be scary.

This is why we offer a **free first test fitting**.

This will help you discover the process, ensure that we learn to work together, and that our service exceeds your expectations.
